The Canadian visit will be climaxed by an address the executive is scheduled to make before parliament on Wednesday.

Mr. Truman arrived in Washington aboard the special presidential plane, the Flying White House, about mid-afternoon Sunday, leaving news and secret service men who accompanied him stranded at Kansas City for several hours with motor trouble.

Mr. Truman told reporters that he would give them no inkling of what he is going to do and when on tax reduction.

Daily Vacation Bible schools opened this morning in a number of the local churches.

Part of Sampson street near the city line is being rebuilt. It will be part of the new route 422 entering the city.

Concrete is being taken out on the highway project on the Wilmington road, starting at Walnut, preparatory to putting down the new wider highway concrete.

Four members of the local sub-station of the State police were rushed to Sharon Saturday afternoon to aid in the direction of traffic which followed the tornado. They also worked in Sharon Sunday.

Bell Telephone Company sent a large number of employees from this city to Sharon and Mercer County Saturday night and Sunday to aid in restoration of telephone service in the tornado swept area.

Traffic on the Perry highway and other routes in this area was exceedingly heavy on Sunday. Hundreds of motorists evidently made their way from the Pittsburgh district to Mercer county, after hearing reports of the tornado damage in that area.

Some damage occurred in New Castle from the storm which ravaged eastern Ohio and Western Pennsylvania, north of this district, on Saturday afternoon. A big oak tree in the yard of Republican County Chairman Roger W. Rowland of 1000 Highland avenue was twisted off, and fell onto the adjoining property. It did slight damage to the front porch. Many smaller limbs were broken from trees and hurled about.

Mercer got part of the tornado on Saturday afternoon. The fair grounds buildings were partially wrecked, many trees were blown down in Mercer county, the section near the intersection of the Perry highway and St. Sandy Lake road on the northern edge of Mercer revealed a wrecked gas station. Much damage was done in the rural areas in the storm's path also.

## Conferring Of Degrees And Diplomas Occurs At Westminster Today

(Special To The News)

NEW WILMINGTON, June 9.—Westminster college's three-day observance of commencement reached a climax at 2 p. m. today with presentation of diplomas to a class of approximately 100 and the conferring of five honorary degrees.

Despite intermittent rains which moved scheduled afternoon events indoors, it is estimated that the college was host to a crowd of 1500 for Alumni Day Saturday. A band concert and the traditional May Queen crowning were held indoors while the May Pole dance was dispensed with.

Approximately 300 enjoyed the luncheon at noon in the United Presbyterian church served by the Young Women's Guild.

Daniel Kelso of Pittsburgh, alumni president, introduced the men who will receive honorary degrees at today's commencement exercises, and representatives of the classes of 1897, 1902, 1907, 1912, 1917, 1922, 1927, 1932, 1937 and 1942 spoke briefly.

## Jones Sees No Threat Of Early Depression

WASHINGTON, June 9.—(INS)—Jessie H. Jones, Texas multi-millionaire and former head of the Reconstruction Finance Corporation, told congress today that the nation faces no threat of an early depression.

Jones in a statement to the house banking and currency committee, urged continuation of the RFC but recommended repeal of many of its powers.

The Houston capitalist, once one of the powerful figures of the late President Roosevelt's New Deal, told the committee:

"While there is considerable talk nowadays about a recession in business, I do not believe we can talk ourselves into a depression."

Jones declared that some reduction in the price of necessities is "highly desirable." He said this would help lower the cost of living. He added:

"I see no possibility of a depression in the near future."

"There is urgent necessity of construction work of every character, public and private, throughout the country. There is a shortage of homes to live in, and homes for business."

"There is probably not a city, town or village in the entire country which is not far behind in essential improvements, that have been neglected during the war period."

## Police Probe New Theory In Death Of Two Infants

Massillon's Bizarre Hospital Mystery Takes New Turn In Investigation

By CHARLES J. TOBACEN  
(U.S. Staff Correspondent)

MASSILLON, O., June 9.—One of the most bizarre hospital mysteries in the nation's history seemed to be taking still another strange turn today.

From the original theory that a maniacal killer murdered ten-week-old Diane Jean Brand and nine-week-old Rose Mary Morton in their Massillon City hospital crisis last Friday night, police shifted their probe to the possibility that the infant girls were killed accidentally—and possibly by a child.

### Question Children

Police Chief Stanley W. Switzer disclosed that the investigation of the deaths that shocked the city was being concentrated, for the time being at least, on intensive questioning of nurses, seven children and one parent.

All were in the immediate vicinity of the death room during the ten-minute interval in which the babies' skulls were fractured by what Coroner Edward C. Reno described as a "blow by a blunt force."

Switzer denied at the same time reports that one of the seven children had confessed pulling the two infants from their cribs while Nurse Marian Silbeck worked in an adjoining sunroom.

While the new lead was being traced, Mr. and Mrs. Harry E. Morton and Mr. and Mrs. Leo Brand, parents of the dead babies, prepared for funeral services this afternoon.

## Lawrence County Families Caught In Sharon Storm

Two Shenango Families Tell Of Experiences In Sharon Tornado Saturday Afternoon

At least two Lawrence county families escaped death miraculously Saturday afternoon when the twister struck Sharon. Mr. and Mrs. William Hanna and Mr. and Mrs. Edward O'Neil of Shenango township were in the direct path of the twister, but somehow were spared.

"We saw the twister coming," said Mrs. Hanna, "and we heard a shrill whistling sound. Suddenly it was dark and we were in the middle of the twister. I first thought an atomic bomb might have been exploded."

"A barn across the highway from us just seemed to disappear from view and then the debris started raining down on us. The fenders on one side were bashed in, the headlights broken, the windshield cracked and once the wind picked the car completely off the ground, but fortunately it did not return."

"All of us felt we would never come through alive but we did. Oddly enough an automobile about 50 yards back of us was not touched. We seemed to have driven right into the path of the twister."

NEW YORK, June 9.—(INS)—Police were trying to find a motive today for the mysterious suicide of Horace S. Marshall, 36, an attorney and his wife, Mrs. Amelia Marshall, 32, also a lawyer.

Marshall leaped 18 stories from the terrace of their penthouse apartment early last night and died instantly. His wife, after hurrying to the street to view her husband's body, returned to the apartment and followed Marshall in his death plunge.

Marshall was reported by a close friend to have been "working very hard lately" but apparently in good health and with no domestic troubles. No motive could be found for the suicide. He was a direct descendant of John Marshall, fourth chief justice of the United States.

### GOODYEAR CUTS TIRE PRICES TOO

AKRON, O., June 9.—(INS)—The Goodyear Tire & Rubber company of Akron today announced a reduction in automobile tire and tube prices to "approximately pre-war levels, or lower."

## Power Company Employees Rushed To Aid Of Sharon

Seventy-Five From New Castle Aid In Repair And Restoration Work In Sharon

Two hundred linemen and other employees of the Pennsylvania Power system, about 75 from New Castle, were rushed to Sharon and Mercer Saturday following a devastating tornado which swept the district. They worked continuously until late yesterday to alleviate whatever conditions they found.

The workers came from Akron, Salem, Zelenople and this city and considerable material, such as wire, poles and transformers, were hauled from the New Castle storehouse to the tornado scene. They joined the power company linemen and employees from Sharon and Mercer.

Locally the high wind and lightning caused interruption. The Cascade sub-station in Vogan street was hit by lightning. Two transformers were burned out, which interrupted service in the Butler and Ellwood City highway districts.

The east side of the city also had an interruption, due to trees and limbs having been blown down by the heavy wind. Sunday afternoon another transformer burned out at the Cascade sub-station but was replaced as soon as possible.

## Second Tornado Strikes Colorado

Farm Area In Sterling, Colorado, Section Struck By Second Twister

STERLING, Colo., June 9.—(INS)—Three Logan county farm residents were treated today for injuries and shock suffered in Colorado's second tornado in three days which yesterday blasted a path 20 miles long through wheat farms 14 miles southeast of Sterling.

Buildings on seven farms were demolished, and a large acreage of wheat was flattened. Damage was estimated at \$250,000.

The storm was similar to that which did nearly one-half million dollars damage Friday at Julesburg, Colo., 75 miles east of Sterling.

The injured are John Heist, 73, his wife, Mary, 70, and their son, Woodrow, 32.

Woodrow Heist, a World War II army veteran, said he saw the twister coming in mid-afternoon yesterday and took refuge in the fruit cellar under the house. The house, silo and barn were demolished.

From the 800-acre Heist farm the tornado roared on east, striking neighboring farms and destroying most of the buildings.

Logan County Sheriff Elmer M. Brown said the twister carried a cow a quarter of a mile and then dashed the animal to death on the ground. At the Heist farm the wind carried away a combine, an auto and a truck.

Torrential rain and hail followed the wind.

## Rehabilitation Work In Tornado Zone Is Started

Sharon Bore Brunt Of Tornado That Swept Ohio And Pennsylvania Sectors Saturday

### TWO IN SHARON DIE IN TORNADO

SHARON, Pa., June 9.—(INS)—Sharon residents today counted damage of more than a million dollars in the wake of a tornado that roared out of Ohio late Saturday and spent its pent-up fury on this city.

The storm, which struck with the suddenness of lightning and was gone almost as quickly, left seven dead, hundreds injured and hundreds of homes destroyed or damaged in the district.

Sharon apparently bore the brunt of the tornado which also struck at Youngstown, Warren, Vienna, Deforest, Niles and Ravenna, O., and Mercer and Grove City, Pa.

### Sharon Hardest Hit

It was at Sharon, however where it caused the most damage.

Here 25 houses were destroyed and 300 others damaged. Mayor Myron Jones said. Two persons were killed in Sharon and more than 300 injured, 51 of them requiring hospitalization.

Those who died in Sharon, were Ronald H. Miller, aged 20, of Burgin, O., who served in the Navy in World War Two; and Edwin Shook, aged 43, of 356 New Castle avenue, Sharon, a navy veteran.

They died when the Ward-Pontiac garage on Biddi street was collapsed by the twister. Neither man was employed at the garage, Miller having dropped in to talk to a friend; while Shook, who runs a used-car lot nearby, was having some work done on a car.

### Funds Allocated

There will be no fund-raising campaign to take care of the homeless in Sharon. It was stated today by officials of the Mercer County Chapter, American Red Cross. Funds from the National Red Cross disaster fund will be allocated to Mercer county to take care of rehabilitating the homeless. Any donations will be turned into this fund, the Red Cross stated.

Most of those who were made homeless were taken care of by neighbors or relatives it was revealed. The Red Cross being asked to move only five families to sections not devastated, and only two requests for rooms were received, these being cared for at the American Legion Home.

Trees by the hundreds were uprooted, power lines knocked down, water mains broken and gas lines snapped.

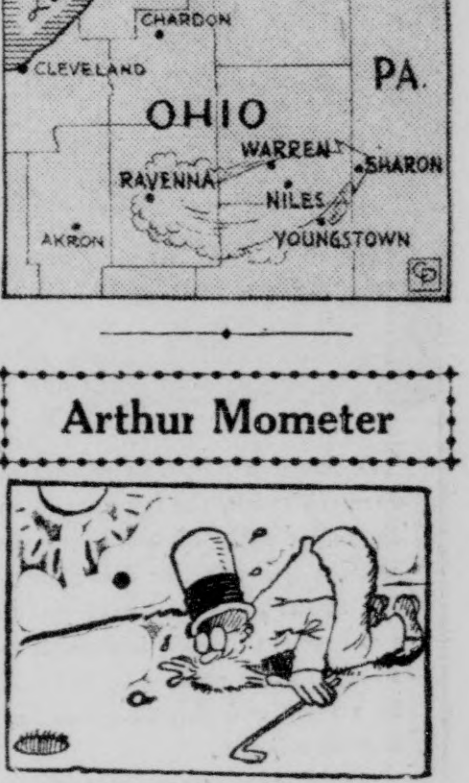

Only today was a semblance of order beginning to come out of the chaos.

An anticipated break from the weather man will be a boon to the surface treatment work of the State Highway Department, Alfred Martin, county superintendent, reported today. Several carloads of bituminous material is on hand and the work will progress rapidly during the week. The men are busy in the Volant district today. They are also working in the Moravia-New Galilee district.

It happens every year and this year is no exception. Our old friends the pigeons have arrived in the city to pay New Castle as an unwelcome visit. Efforts have been made to stop the birds from roosting on the buildings, however none seem to have been a success. Will some ingenious inventor devise a method of eliminating the birds without killing them and save the city a public headache???

## MRS. SPENCER TRACY MAKES VISIT HERE

(Continued from Page One)

training and care they never learn to speak. Hence they are called deaf and dumb, which is not true.

In the clinic we take youngsters only up to the age of six. Our most important work is in helping parents to help their youngsters for it takes patience and understanding and sympathy and above all, it takes work to teach a deaf child to talk. We have about 20 youngsters in what we call our nursery school but we have many more parents who attend classes.

### Correspondence Course

"We also operate a correspondence course which goes out to every part of the world. Mothers of deaf children, no matter where they live can write to the clinic and we send them the correspondence course for a year without cost. We insist that a report must be made each month, and we have been encouraged at the success of the course."

In 1942 the University of Southern California gave Mrs. Tracy several small buildings to use as class and clinic rooms and to these have been added others over the years. Today the clinic is staffed with competent professional men and women and the work is expanding rapidly.

So much so in fact that a campaign has been started to raise half a million dollars for building purposes. William M. Jeffers, president of the Union Pacific Railroad is heading the campaign.

Mrs. Tracy spoke June 4 in Jacksonville, Ill., at the opening of the summer session of the Illinois State School for the Deaf. She also addressed groups of parents in Chicago and on June 19 goes to St. Augustine, Fla., where she will address a convention of educators.

On June 28 she goes to Iowa City, Ia., where she will speak at one of the sessions held by the University of Iowa. Her first stop after leaving New Castle will be New York City where she will visit the famed Lexington School.

One has to talk to Mrs. Tracy but a short time to realize why the John Tracy Clinic has been so successful. It is directed by a woman who would not be defeated in her efforts to teach a deaf son to talk. Successful in her own family, she went on to help others and today spends most of her waking hours in the work.

Mrs. Tracy left New Castle late this afternoon for New York City.

## Strike In France May Be Extended

PARIS, June 9.—(INS)—Powerful circles of the French Confederation of Labor threatened today to extend the paralyzing general rail strike to all freight and passenger transport if the government continues its refusal to negotiate.

Spokesmen for these groups bitterly condemned the government's efforts to organize emergency transport service to move essential coal and other raw materials.

The Federation of Municipal Services threatened to call out its members Friday.

age of twisted home to prevent looting while the American Red Cross disaster relief committee went about the job of caring for still-dazed victims and of providing temporary shelter for 150 families.

Communications were being restored rapidly and electricity, water and gas services were being restored in undamaged homes.

### 30 Block Area Damaged

Most of the damage occurred in a 30-block area as the twister dipped into Snaron. Other points on its 75-mile, zip-zag course out of Ohio were not hit so severely, but damage totalling hundreds of thousands of dollars and many injuries were counted today.

The tornado came almost on the third anniversary of a more devastating twister that struck western Pennsylvania June 23, 1944, bounced into West Virginia and left 154 dead in its wake.

### Restoration Work In Ohio

WARREN, O., June 9.—The gigantic task of repairing wrecked homes, clearing streets of fallen trees and debris and caring for the homeless faced Warren area authorities today.

Three persons were dead, more than 125 were hospitalized and more than \$500,000 damages in Ohio were left in the wake of the Tornado which ripped through the area Saturday.

The revised list of dead in Ohio lists the following: Mrs. A. L. Beachler, 66, of Vienna; Mrs. Howard Gray, 58, of Liberty township, and Larry Neiswonger, 18 months, grandson of Mrs. Gray.

The small town of Vienna, due east of Warren, was still blocked off to traffic as weary Red Cross

workers cared for some 100 homeless persons. About 30 homes were demolished in this area. Still hospitalized last night were 22 persons in Warren and eight in Youngstown.

Emergency building supplies were rushed to the stricken area. State highway patrolmen and auxiliary police patrolled the devastated sections to prevent looting of the wrecked homes. Only relatives were permitted to enter the roped-off area.

ceding waters of the Des Moines river would not increase the figure above the ten already reported.

### Shortage Of Drinking Water

The town of 40,000 persons faced a shortage of drinking water, while army and navy physicians took precautions by ordering inoculations to fight the danger of typhoid fever.

Enough serum was on hand for 21,000 inoculations.

The south side of the city was awash with flood water, and most of 15,000 refugees housed in tents, public buildings, churches and other emergency shelter were evacuated from that district.

Precautions were taken against looting. Naval air cadets and state militiamen were on guard, acting under the general supervision of Mayor Henry Schaefer.

Authorities were hopeful that persons listed as missing would turn up safe today.

## DO NOT THROW AWAY THE KEYS To TRUE FREEDOM!

The longer a sick man refuses to face the truth, the less chance he has to get well. Just waiting to see what will happen, or doing nothing about one's personal health until serious damage is done, is as unreasonable as locking yourself in a room and throwing the key out the window.

Your Doctor cannot get you well without your cooperation. Give your Doctor the facts that will help to open the door. Vital health is worth working for.

Some wise man has said, "you do no good by helping a man up—if he cannot stand on his feet. It is innate that man must do for himself."

The two most important keys to true freedom are: HEALTH that will fully free your brain and body for achievement; WORK, as a free man or woman, to pursue the opportunities so rich at hand.

Put forth the personal effort to make and keep these keys your own.

### SEH-RAMSEY EVENT SATURDAY EVENING

First U. P. church was the scene of a lovely early June candlelight wedding Saturday evening when Miss Charlotte Ellen Seh, daughter of Mrs. George A. Morrow, of Orlando, Fla., and Fred Seh, of Youngstown, O., became the bride of William Stone Ramsey, son of Ralph H. Ramsey, of 323 Park avenue, this city. Vases of white flowers, ferns and palms banked the altar.

Dr. S. E. Irvine officiated at the 7:30 o'clock ceremony in the presence of a large gathering of guests. The bride wore a gown of ivory slipper satin fashioned with an off-the-shoulder neckline below a marquisette yoke. The full skirt was caught up in a drape showing an inset of marquisette ruffles. Her veil of illusion fell from a Mary Queen of Scots headdress and she carried a white Bible marked with an orchid cluster and ribbon streamers.

As matron of honor the bride's cousin, Mrs. Sidney M. Hamrick of Charlotte, N. C., wore an off-the-shoulder gown of aqua net, the full skirt fashioned with tiers of ruffles to the floor. Bridesmaids Miss Edythe Eleanor of Davy, W. V., a roommate of the bride at Virginia Intermont College for Girls, and Miss Edna Lee Nunn wore gowns of the same style in primrose yellow. They all carried colonial bouquets of summer flowers in pink, blue and yellow.

Mr. Ramsey served his son as best man and ushers were L. Reid Shiner, Richard Horchler, Donald Smith and William K. Kalleher of Memphis, Tenn.

Organ music preceding the ceremony and for the processional was played by Mrs. John F. Love.

Immediately after the ceremony there was a reception in the coral room of The Castleton for 150 guests. An arrangement of white flowers decorated the bride's table and bouquets of flowers were placed about the room.

Mr. and Mrs. Ramsey left by car on a wedding trip to Quebec, Canada, and on their return will be at home at 323 Park avenue.

Mrs. Ramsey is a graduate of New Castle high school and Virginia Intermont college where she was May Queen.

Mr. Ramsey, a graduate of New Castle high school, who served three years in the Army with the Forty-second Infantry, is associated in business with his father in D. G. Ramsey & Sons.

**A Weak, Run-Down Feeling Is Often A Warning**

That The Red-Blood Is Getting Low

If you do not feel like your real self, do not have the urge to be up and doing, why not check-up on your blood strength? Look at the palms of your hands, your fingernails, your lips, the lobes of your ears—are they pale and off color?

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloating and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps Build Sturdy Health.

### Dewey Has Chance To Clear Murky Air

WASHINGTON, June 9.—Political passion and prejudice should have no part. With foresight and a willingness on the part of our people to face up to the vast responsibilities which history has clearly placed upon our country, the difficulties I have outlined can and will be overcome.

These were the concluding words of the historic speech Secretary of State George C. Marshall made at Harvard University. The date of June 5 is likely to be triple-starred in the history books because of that speech even though the American people fall short of the willingness and the foresight the crisis calls for.

Even the casual newspaper reader cannot have missed the meaning of the coincidence of events on that day. Almost at the same hour that Marshall spoke, President Truman issued his attack on Sen. Robert A. Taft.

Taft had said that the Truman program of foreign aid was keeping up prices at home, contrary to the expressed intention of the president to bring prices down. You could read into the Taft statement an implication that the president was guilty of deliberate double-dealing.

The Taft statement was politics. It was provocatively aimed at a sensitive point of national policy. Mr. Truman can hardly be blamed for being upset.

#### Opening Of Content

But whether he intended it or not, the president's statement together with Taft's will be taken by many as the opening round in next year's political contest. Certainly it foreshadows the kind of arguments we shall hear in 1948. Those arguments will grow increasingly bitter in the next 16 months.

The Taft-Truman exchange illuminates the dilemma of the coming months in a startling way. In the simplest terms, it is this: National and international policy are so linked together that it is difficult or impossible to have a bipartisan foreign and a partisan domestic policy.

As Mr. Truman acknowledged in his blast, the foreign-aid program does mean pressure on prices in this country. That is part of the grumble of business men who level the charge of politics at the president for his effort to talk prices down.

What Mr. Truman might have pointed out was that Sen. Taft gets most of the credit or the blame—depending on the political slant you take—for destroying price controls. It is true that the controls had been gravely weakened by action of the Truman administration before Congress a year ago scuttled price control. Without any controls, however, the tremendous pressures at home and abroad sent prices skyward.

To Cost Billions  
State department planners are working on the outline of a program for support of a unified Europe would cost upwards of six billions a year for five or six years. In his clear, precise language, Marshall told us why such a program is essential. It is essential both to (Continued on Page Ten)

### MOTHER'S REACTION TO RUN-AWAY MARRIAGE

"My 20-year-old daughter, who is away at school, secretly married although she had faithfully promised she would wait until she reached 21 next December. I have given her every advantage possible and feel that I've been greatly hurt. Soon she and her husband will be home. Please advise me what attitude to take toward her and her husband. I feel very bitter about the whole matter. Also advise me what obligations are mine. Should his parents call first or should we? A friend is going to give her a shower and has invited me. Am I supposed to send a gift even if I am unable to attend?"

Answer: There is little you can do about the marriage now other than give your blessing to the wedded pair. Any other course would cause a rift to be regretted by both of you as the years go on. And furthermore, if you continue with your bitterness, your son-in-law might become permanently insulted.

No matter how a parent feels toward the prospective marriage of a child, she should become resigned to it after it has taken place and show no resentment or bitterness toward the new in-law. Many a son-in-law who looked like a poor matrimonial bet has later shown sterling qualities.

Your son-in-law's parents should first call on you. If they neglect to do so, you and your husband should call on them. This call should be returned.

Invite the groom's immediate family to dinner to meet the bride's aunts, uncles, etc. His family should reciprocate, inviting you to meet his relatives.

Go to the shower if you can conveniently do so. If you cannot attend, send a gift nevertheless.

Present your problems to Miss Martel who will promptly mail personal replies to questions from readers inclosing stamped, self-addressed envelopes.

In other sections of the country heavy rains are making roads, streets and living room unlivable. What very unusual weather everyone is having . . . but as our friend Cy Hungerford pictured in this morning paper . . . maybe this weather goes with the type of world that we are living in today . . . as he terms it . . . ## The World and the Mud Puddles

JUST A PEST

I wonder what would have happened had the President after he had dismissed Henry Wallace from his Cabinet, appointed him Ambassador Extraordinary to the Soviet Republic? One citizen to whom I made this suggestion said: "Well, it would not have taken Joseph Stalin long to settle that question. He would have treated Mr. Wallace royally; shown him what a wonderful place Moscow was, not showing him much else except making him acquainted with the pleasant, affable and kindly souls who are a part of Stalin's government. It is probable that Mr. Wallace would never have been permitted to sin back of the curtain. He probably would have written a book like Mr. Davies about what wonderful people there are in Russia and how happy they are."

#### What's To Be Done?

And what are we going to do with Mr. Wallace? He has been attacking the policies of our State Department not only in England and France but has come home to America and is running loose over this nation. If the President continues to ignore him, I think that would be admirable. And I think at the same time it would be a good thing if the public press would—while Wallace is evidently seeking notoriety and publicity and followers who will urge his candidacy for the presidency in 1948 either at the hands of the Democratic Party or his own party—practically ignore him.

In Los Angeles they would not let him speak at the Hollywood Bowl. I think that was a mistake for he did speak at the Gilmore Stadium to more people than he would have addressed in the Hollywood Bowl and both the refusal to allow him to use the Hollywood Bowl and the story of the proceedings published of the large crowd that eventually did crowd the Stadium to hear him gave evidence of the advertising power of the press.

Unfortunately, in foreign countries there is a disposition to exaggerate the importance of Mr. Wallace and his freely volunteered political views. That is what made his anti-Truman, pro-Soviet outburst in London embarrassing, not only to the President, but to the country in general.

The disposition on the part of the American people to the political aspirations and the expression of sentiment such as are pronounced by Mr. Wallace to forcibly prevent him from airing his views, is very unfortunate. It does not speak well for our much vaunted privilege of "free speech."

If the Los Angeles papers, for instance, (Continued on Page Ten)

## The Parent Problem

By Garry C. Myers, Ph. D.

### A GARDEN FOR YOUR YOUNGSTER

The child who has a garden plot of his own, who plants it himself and faithfully cultivates it can gain rich moral values therefrom; and the more the child takes responsibility for this garden the more fun and character worth he acquires.

Some children have school gardens which they have planted and cultivated under supervision while at school. At school children work in the garden in groups, as a rule, each child on his own plot. Often this is done during school hours just as if it had been reading or spelling, and rightly so as an educative activity.

During Summer Vacation But very few school garden plots will be ready to harvest before summer vacation begins. The school assumes that each child will continue to cultivate his own garden plot faithfully during vacation and harvest it properly.

After all, the real test of responsibility in the child is how well he carries on with his garden plot through the summer. Parents who really care will see that the child fulfills this responsibility. Skillful suggestions, an occasional trip with the child to his garden, even helping him with it now and then might provide the necessary urge to the youngster. In a good many instances, however, the parents will need to require the child to care for this school garden during vacation. If they let him neglect it great will be the consequent loss to his moral growth.

The same principle applies to the child's own home garden plot. He may find it easy to work at his garden while the father and mother work on the family garden. Even then some requirement may be necessary. It's not the chinking weeds that matter so much as the weeds they symbolize in the child's moral fiber. Indeed, for a child old enough and able to care for a garden plot to neglect it may prove a greater moral loss to him than not to have begun the garden at all. Fortunately many a home has a (Continued on Page Ten)

According to recent statistics, there were 229,920 cars stolen last year. The daily average for these thefts was 630. Even more startling is the fact that a large majority of these thefts were facilitated by the keys being left in the ignitions of the cars by the owners.

### Moscow Radio Stresses Problem of the U. S. Steel Lack Forecasts New Auto Output Slump Matthews and Bohlen To Go Abroad

Special to Central Press

WASHINGTON, June 9.—Congressmen seeking to trim the appropriation for American foreign propaganda broadcasts are likely to be confronted with intimate details on the extent of Russia's activities along the same line.

A survey of one day's radio activity in the political field shows that the Moscow radio—plus those operating from satellite states and Russian-controlled Germany—devotes about 80 per cent of its time to the problem of the United States.

At the moment these concentrate on President Truman's policy on Greece and Turkey. They are beamed not only to the Russian people but to Turkey and Greece. There is no report on the progress of the basic legislation, but great length is devoted to speeches of Henry Wallace and opposition in Congress.

Broadcasts in the language of the satellite states also stress the "Big Four" Foreign Ministers conference, placing the United States and Britain in unenviable positions.

France is not attacked, presumably because of the heavy Communist party strength in that country.

CONGRESS GOT A SHOCK by being told by Americans who are illiterate that there are 10 million adult John K. Norton, Columbia university professor of education, said that there are three million adult Americans who never attended any kind of school.

Norton, urging federal financial aid to schools, said the 1940 census enumerated two million children, 6 to 16, who were not in school.

He estimated that there are at least three million children in the United States who are not in school but who should be—"both for their own good and the good of the country as a whole."

### AUTO DEALERS ARE LOOKING for another slump in car production.

Chief reason is lack of steel. The shortage is being reflected in the current output, which dropped to 50,000 cars per week from the spring average of some 70,000.

Production schedules in most major plants have been cut and upwards of 50,000 workers already have been laid off.

This means that used car owners will have to put up with their old models for some time.

While steel production still is running short, U. S. Steel has indicated that prices won't be lowered. The company said that despite sizable profits, the returns on investment were only nominal and present prices were fair.

THE IMPENDING DEPARTURE from the State department of Undersecretary Dean Acheson highlights a situation which is coming more and more to the fore—the lack of topgrade talent for the work of peacemaking and peacekeeping.

Acheson is merely an outstanding example. But his departure may be followed by that of Spruille Braden, assistant secretary for Latin-American affairs. During the summer, two top specialists badly needed in the department must be sent abroad under the foreign service act, which limits assignment to the department to four years at a stretch.

These are W. Freeman Matthews, European expert, and Charles E. Bohlen, invaluable Russian expert, who has attended all secret sessions of the "Big Three" as translator and adviser.

Meanwhile, the department is shopping about for experienced business and professional men with qualifications to fill higher salary posts. But since these can't go beyond \$10,000 a year the men are not found easily.

Some have suggested the return of Sumner Welles. He resigned in a dispute with Cordell Hull. However, his return is unlikely. He is making more money than the department can offer, and has more freedom to express his views through his newspaper column, books and radio programs.

## In View Of The News

By J. C. Ostreicher, INS Foreign Director

Disclosure that Bulgaria has launched itself upon a pro-Communist governmental shuffle that may duplicate the situation prevailing in Hungary brought back into the news today one of Europe's most controversial figures.

He is Georgi Dimitroff, known to history and famed in Communist song and story as the man who came out on top in a verbal battle of wits with Hermann Wilhelm Goering.

Dimitroff at this moment is one of the most powerful Communist leaders in the world, able to sit in the same row at public gatherings with Stalin, Molotov and Tito. He is the premier of Bulgaria, and as a former secretary-general of the Communist International, a person of enormous influence.

Rises To Fame But a scant 14 years ago Dimitroff was a more or less obscure political refugee. He bounded to fame and presumably to fortune by the simple knack of keeping cool and by simple logic of driving Goering into a tautism that became a public spectacle.

The ridiculous appearance he made on that one occasion must have flashed through the fat marshal's mind in the last seconds before self-administered death took him in his squalid jail cell at Nuernberg. For Goering never could forget it, and any mention of Dimitroff's name in his presence during the days of Nazi power was a fast, unimpeded one way street to the gallows or the executioner's axe.

The incident was during the

famed Reichstag fire trial in Berlin. Dimitroff, then an exile from his native Sofia, was one of a number of wandering Communists picked up by the Gestapo and accused of setting the Reichstag building on fire.

Public Hearings  
Antagonize SomeSome Reactions To Public  
Hearings In Legislature  
Are Recounted HereOTHER NEWS OF  
STATE AFFAIRS

HARRISBURG, June 9.—(INS)—Public hearings on proposed legislation usually re-affirm the knowledge that many persons appearing to testify in official capacities, have a knack for antagonizing committees.—Dr. Elmer Hess, of Erie, was the latest of run to form—he told a committee hearing testimony on house-approved bill proposing establishment of mental health department that anyone voting for the bill "should be examined by a psychiatrist." The effect was immediately apparent on the senators. They stiffened, making quiet sounds of disapproval.—Hess' statement stemmed from the fact that the bill would not require the head of the department to be a psychiatrist.

Legislators usually are quite touchy about their ability on the floor and in committee rooms.—It seems to be all right for assembly men to criticize each other in bitter terms but that privilege does not extend to others. Sen. Bertram G. Frazier (R) Phila., is one who has almost a ludicrous belief in his ability.—A first timer, Frazier likes to give the impression of being well versed in most subjects coming before the senate.—A member of the committee hearing testimony on the hospital bill, Frazier listened to State Secretary of Welfare Charles R. Barber voice objections and then naively inquired: "Pardon me, but what department are you the secretary of?"

Mrs. Hannah Durham, of Allentown, vice-president of the Republican council of women, is considered to be one of the more able women politicians in the game and one reason has become apparent.—Mrs. Durham, recognizing the fact that people have little interest in politics, except when they want something from politicians, has undertaken to show women from her county how the general assembly operates.—She recently brought a large group of young women from Lehigh county to the state capital and showed them a few of the legislative ropes.—Not only did such a junket stimulate interest in government but the attractive GOP leader lost no time in plugging politics. One veteran senator watched Mrs. Durham shepherd her flock through the senate and remarked: "If Hannah keeps on with these trips she'll run out of Republicans and have to start converting Democrats."

Some legislators are betting that the teachers pay wrangle, which flared anew despite an announced agreement on new pay scales, will force leaders to scrap June 14 as a tentative date for final adjournment.—several house members believe the session will run into July.

The library at Alexandria, Egypt, under the Ptolemies, is said to have contained 700,000 volumes.

Proposed Control  
Of British Liquor  
Industry Assailed

WCTU Convention Denounces Nationalization In Britain, Canada

ASBURY PARK, N. J., June 9.—(INS)—The proposed nationalization of liquor industries in Great Britain and Canada was assailed as "illogical and anti-social" at the 17th convention of the World's Women's Christian Temperance Union.

Mrs. Dorothy Staunton, British delegate, read a report from H. Cecil Heath, London barrister-at-law, in which it was contended that government control of the liquor industry would solve no problems and in fact would create new ones.

She told the 2,000 delegates and visitors from 26 countries: "Any proposal to acquire such a traffic as state property is thoroughly illogical and anti-social. Nothing can justify the purchase by the state of a business which, when run by private individuals, has earned the moral reprobation of the community."

"The stigma which rests upon the liquor trade disappears when it becomes a government institution. Public utilities may well be nationalized but not public nuisances."

Mrs. Staunton asserted that since children are taught in schools that alcohol is dangerous, the whole program would come to naught when they realize the state itself is the purveyor of such beverages. He continued:

"The supreme fallacy which attaches to the advocacy of nationalization of the drink trade is a belief that under state ownership it is possible, in some magical way, to de-alcoholize alcohol."

"The drink problem will only be satisfactorily and finally solved when drink itself has been swept away by the action of an enlightened people."

As her maid of honor she had her sister, Miss Kathleen Carlin, who wore a floor-length pink mousseline de soie gown with a matching pink flower headress and carried a colonial bouquet.

As best man the groom had Jon Carlin, brother of the bride. Immediately following the ceremony a wedding breakfast was served to the immediate families in the home of the bride's parents, where there was a reception later from two to four o'clock in the afternoon.

Mr. and Mrs. Paradiso left by train on a wedding trip to Washington, D. C. They will make their home in Philadelphia at 250 South 23rd street.

Opening services of the Golden Central Christian church, East Long avenue, attracted a large assemblage of members and friends to the church Sunday morning and evening.

He chose to speak on "Past, Present and Future" in which he used Philippians 3:13-14 as his text, "Forgetting things which are behind . . . **CALL FOR PETERSON**  
PORTLAND, Ore.—(INS)—Erik Peterson of Germany gave the Portland "town council" a needle-in-the-haystack job when he asked by mail: "Is there a Peterson in the house?" It seemed Peterson lost track of his family when it migrated to Oregon late in the last century. Now there are 300 families of the name around Portland alone. The city council was disposed to refer the matter to a fellow-commissioner—Fred L. Peterson.

Consistory Starts  
Tuesday

Candidates for degrees in the Valley of New Castle Consistory, A. A. S. R. will gather Tuesday afternoon at 1 o'clock DST for registration, and for the four-day reunion which will get underway at 3 o'clock. Conferring of degrees will continue through Wednesday, Thursday and Friday, with afternoon and evening sessions, ending with the exemplification of the 32nd degree on Friday evening.

The usual fellowship of the Scottish Rite body will prevail throughout the reunion, and on Friday afternoon the wives of the candidates will be entertained at a ladies' day program at the Field club Friday afternoon.

There will be a reunion dinner party Friday evening for members and their ladies only, with continuous service from 5 to 7 o'clock, followed by a stage show, pictures and dancing. Reservations must be made for this event, the entertainment committee announces.

## Consider Ending Sugar Rationing At End Of Month

WASHINGTON, June 9.—(INS)—The agriculture department is considering ending home sugar rationing June 30.

It was authoritatively learned today that a final decision is dependent largely upon the following three factors:

1. Continued regular shipments of sugar from Cuba, whose crop has exceeded agriculture department estimates.
2. No maritime strike.
3. No increase in present consumer consumption.

Under existing law, both home sugar rationing and controls over the allocation of sugar to industrial users will end Oct. 31 unless terminated earlier by Secretary of Agriculture Anderson.

## Fathers-Sons Hear Rev. E. C. Anderson

Fathers and sons, representing the Sampson Street Alliance church, assembled Saturday evening, at a suburban tearoom for a fathers and sons' banquet.

Rev. Edward Truran, pastor of the church, was chairman of the event. He introduced Robert Chapell, president of the local camp of the Glideons, who offered the invocation.

The toast from the sons to the fathers was given by Charles Houk, with Albert Searfoss presenting the toast to the sons.

At the conclusion of the sumptuous repast, Rev. E. C. Anderson, former pastor of the Alliance Gospel Tabernacle, 210 Pearson street, and now western Pennsylvania district superintendent of the denomination, gave the address of the evening. Using Deuteronomy six as the basis for his remarks, Rev. Anderson likened God unto a plowman in which he is constantly seeking men who are not afraid to stand for the right in spite of oppositions. He admonished his listeners to ever be attentive to the voice of God.

The speaker of the evening is in the city in connection with the golden anniversary of the Pearson street tabernacle.

### GARDEN VEGETABLES MAY NEED NITROGEN

Where heavy rains have leached out nitrogen from fertilizer already placed in the home garden, side dressing of a number of vegetables, including onions, lettuce, carrots and beets, is in order.

Nitrate of soda will give best results, or sulphate of ammonia, either of which can be applied at the rate of an ordinary handful every 5 or 6 feet of row, on one side, and worked into the soil.

If these are not available, regular garden fertilizers, 5-10-5 or 4-12-4, may be used, a handful to 3 feet, in a 3-inch trench about 4 to 5 inches from the row, or farther, if necessary to avoid damage to the roots.

## Man Dies After Taking Pictures Of Mercer Storm

MERCER, June 9.—An Ambridge man, returning from an errand of mercy, collapsed and died shortly after he stopped to photograph the tornado damage here Saturday.

Henri R. Todd, 61, of 825 Ridge road, Ambridge, collapsed at the wheel of his auto in Route 19, one mile south of here. The auto plunged off the road into a field, but did not upset.

Mrs. Mary Todd, his wife, said they had been visiting her ill sister in Erie. They reached Mercer a few minutes after the twister roared through the town.

Mr. Todd, an amateur photographer, took pictures, then climbed back into his auto.

After his collapse, he was pronounced dead by a nearby physician and his body was removed to a funeral home here. Later, it was taken to an Ambridge funeral home. Mr. Todd had been instructor of auto mechanics in the vocational department of the Ambridge high school.

## Oil Drum Body May Be That Of Reading Divorcee

Relatives Identify Body As Mrs.  
Bermilla Hessler, But Case  
Still Foggy

PHILADELPHIA, June 9.—(INS)—Philadelphia police today investigated the possibility that the slain woman found in an oil drum on a vacant lot last week may have been a 38-year-old Reading divorcee who disappeared May 7.

Mrs. Gloria Barbour, 35, a sister and Grove Barbour, a brother-in-law, of Reading, identified the body in the Philadelphia morgue as Mrs. Bermilla Hessler, a former WAC, and mother of an 18-year-old son. "I'm sure it's she," said Mrs. Barbour.

Complicating the identification, however, was the statement of the supposed victim's son, Gerald, who told authorities he had received a telephone call from New York last Monday from a woman he believed to have been his mother.

The body was found last Monday, and was believed to have been dead from three to four weeks.

Mrs. Hessler had been working in the children's ward of Bellevue hospital, in New York City. She left the job on May 7, however, and was expected in Reading by Mrs. Barbour. Police said the victim had been wrapped in a Philadelphia newspaper dated May 7.

Police traced the woman to Philadelphia on May 7, where she met a brother, Robert Kline. Kline told police she left him that night saying she was "going to see someone here in town."

From that point on, the whereabouts of the woman were unknown.

## Former Local Woman Hurt In Sharon Storm

Mrs. B. O'Brian, 556 High street, Sharon, formerly of Etna street, New Castle, was injured in the tornado which struck Sharon Saturday 3:45 P. M. T. Bruises on the hip and face were the result of an injury, when Mrs. O'Brian tried to run, only to be pinned under a door of her son Emerson's grocery store. Her husband, a customer, helped her out of the store. Mrs. O'Brian related that her husband and son had left the store for lunch, escaping injury, while she, a customer, and Frances Ferberry, an employee, were injured. Damage to the store "Quaker Superette", corner of 392 New Castle avenue and Liberty street, was heavy, when the building caved in. Building, stock, employees and customers were all insured.

Mrs. B. O'Brian is a sister to Mrs. E. R. Critchlow, Atkinson street, this city.

stance, before Mr. Wallace came to Los Angeles, simply made a statement that Mr. Wallace was to make an address in the Hollywood Bowl on such and such an evening—an announcement of probably five lines of type—and let it go at that; and after he had spoken, a story just about as short, saying that Mr. Wallace spoke in the Hollywood Bowl "last night"; that he said a good many things detrimental to the work of the President and enlarged upon what good fellows Mr. Stalin and Mr. Molotov were, and said nothing about how many people were at the Bowl or their enthusiasm or lack of it in the crowd attending—just a paragraph—the chances are that Mr. Wallace would have been very much disappointed.

### Great Head Lines

Instead, there were great flaring head lines chronicling everything Mr. Wallace did and said while he was in Los Angeles and having interviews with Henry, in which Henry boasted that he was the sole inheritor of the late President Roosevelt's wonderful ideas. The chances are they played right into Mr. Wallace's hands and did a very good job of advertising Mr. Wallace's candidacy for the presidency in 1948. The fact is that it only dignifies Mr. Wallace when the Press advertises him in this way. In calling Mr. Wallace a menace only flatters him.

Like a mosquito, he is only a pest.

## WASHINGTON CALLING

(Continued from Page Four)

European stability and American prosperity in light of the fact that roughly one-sixth of what the United States makes or grows is being sent abroad. Cut even a part of those exports and the effect would be felt immediately.

In order to send five or six billions of our goods to Europe in some form of lend-lease, we should need a minimum of regulation and control in force here. Otherwise we could risk feeding the inflation at home.

Yet anyone who looks candidly at the present political scene must realize that the trend is in exactly the opposite direction. Some export controls have been taken off. The pressure is to throw them all overboard.

### Do Not Go Together

Lincoln said the nation could not exist half slave and half free. It is hard to see how the nation can accept the responsibility of its overwhelming economic power with an untrammelled boom at home and the controlled expenditure of billions abroad. Boom at home and directed spending for peace abroad do not go together.

There is no reason to believe that those on the Republican side who will make most of the background noise in Washington leading up to '48 have faced this reality. That's statement was an obvious effort to exploit current prejudice. One man could do a great deal to make us understand that domestic and foreign policies are tied together. That man is Gov. Thomas E. Dewey of New York. A responsible speech on foreign policy by Dewey, recognizing the fearful realities of the moment, would clear the murky air of Washington like a thundershower. It is an opportunity such as few men are given.

## IN VIEW OF THE NEWS

(Continued from Page Four)

Adolf Hitler might have a pretext for eliminating the Communist party in Germany. But they manufactured an intricate case against Dimitrov and the others and a drumhead trial was held.

Goering was present in person. Dimitrov defended himself, was able to submit an ironclad alibi and then by shrewd legalistics made it apparent that the fire could have been started only by someone with access to Goering's own Prussian presidential offices.

The marshal was so infuriated that he jumped up and in effect said: "Just wait until you get out of here. I'll fix you!"

But Dimitrov was acquitted and shipped to Russia in exchange for a number of German political prisoners. From that moment on he was a major figure in the Soviet hierarchy.

As kingpin in Sofia Dimitrov probably can act against non-Communists with even more speed and dispatch than his Hungarian contemporaries, and he has full assurances of unbroken support from Moscow.

Up to the moment there are no signs that he or the Hungarians have been intimidated by Anglo-American opposition to their "purges." Dimitrov certainly has had plenty of experience in fighting criticism from high places. It is not every man who has hung a Goering scalp on his war-belt.

## THE PARENT PROBLEM

flower or vegetable garden or both. When a child does not have a garden plot of his own at home he should be required to share in the care of the family garden. How effective the requirement can be will depend pretty largely on how effectively his parents have trained him in sharing other home responsibilities.

### Working Together

Of course, there is great virtue in working together, child and parents, in the garden and at all sorts of other things. Even so, the child may not on his own free will and accord choose to help.

Suppose your child, ten, won't help you in the garden but merely dawdles when you require him to be with you while you work in the garden. Don't argue. Tell him that for a certain period that day (say 1½ hours) he will not be allowed to work but will have to sit without any amusement near where you are working. Next time you work in the garden do likewise. After several such experiences he will conclude that real work would be preferred to monotonous sitting.

Catacombs, tombs hewn in solid rock, were used by the Etruscans as family burial places. Later the term was applied to all subterranean cemeteries. The most famous catacombs are in Rome, and form a vast labyrinth of narrow galleries with small chambers excavated at different levels.

## LOOKING AT LIFE

gossip just as much as humans do.

First Shawnee, an Irish setter from two miles down the road, came to visit. My wife gave him a bone with some meat on it, and the next day he brought Pete, the blonde cocker spaniel from another nearby place.

Then a big black poodle, who hasn't been combed or bathed in a year, made his appearance and is now a regular visitor. But last week came the climax. A black and white cocker came along. He sniffed at my leg and liked me. I went into the house and he followed me. Now he spends hours lying in front of our place, and my wife tells me that he seems to know when my train is due, and he waits for me and gives me joyous wiggles with his stub of a tail when I get out of the car that takes me from the station to the house. And, mind you, he hasn't even had a tidbit, just some petting.

Don't think for a minute that all those dogs are in love with us. We wouldn't want them to be. It wouldn't be fair to their masters. But dogs are so full of love that even if we only get a little that's left over, it still makes us feel a bit less lonesome for Deuce.

And it makes us kind of proud, too. You can't fool dogs, you know. (Distributed by King Feature Syndicate, Inc.)

## Anniversary Is Started At Church

### Gospel Tabernacle Begins Fiftieth Anniversary Week Sunday

Former days were revived Sunday in the Gospel Tabernacle of the Christian and Missionary Alliance, 210 Pearson street, during the opening services of the 50th anniversary celebration of the church.

The week-long jubilee celebration got under way with the morning worship period in the church at 10:45 o'clock, with the pastor, Rev. J. H. Boon, as chairman. Following the opening exercises of the service Rev. E. C. Anderson, former pastor of the tabernacle and now district superintendent for the church of western Pennsylvania, was introduced as the first speaker of the week.

Choosing Romans 4:20, "He staggered not at the promise of God," as a foundation for his anniversary address, Rev. Anderson reminded the congregation of earlier days in the church history when the leaders were not afraid to put God to the test. He congratulated the members on the occasion of their golden anniversary and exhorted congregation to continue on in the faith.

A surprise was in store for the church members in the evening, when Mrs. E. C. Anderson, wife of the former pastor, was introduced as the speaker. During Rev. Anderson's pastorate here he preached during the morning, while Mrs. Anderson preached in the evening. Taking an Old Testament text, Mrs. Anderson centered her remarks around the "Ark of the Covenant," in which she reminded her listeners to walk closely after the things of God and to put away strange Gods.

The anniversary services will continue each evening this week, with Rev. DeLois Pinney of Beaver Falls, former Sunday school superintendent of the church, speaking this evening. On Tuesday evening Rev. P. B. Collett of Beulah Beach, O., will speak; Wednesday and Thursday evenings, Rev. C. H. Westover of Greensburg, Pa., will speak; Friday evening, Rev. Floyd McFarland of Barnsboro, Pa., will speak, and the concluding speaker will be Dr. H. M. Shuman of New York City, president of the Christian and Missionary Alliance.

## Begin Effort To Recover Body In River

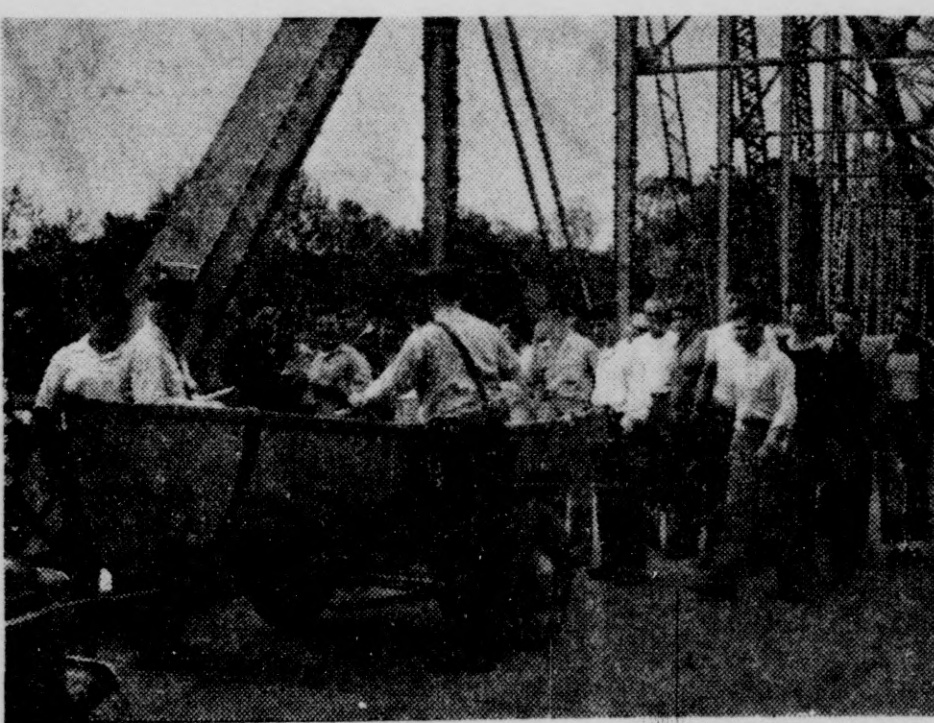

Photo by Wm. Weitz

Police officers and others on the Willow Grove bridge, preparing to launch boat, in effort to recover body of man which was seen being carried down Mahoning river in swift current, Saturday afternoon. The effort failed.

Efforts of state, city police and sheriff's deputies to recover the body of a drowned person, attired only in bathing trunks, seen floating in the Mahoning river at 5:15 p. m. Saturday between the P. R. R. bridge and the Willow Grove bridge, failed Saturday. The search was abandoned at 8:30 p. m.

Volunteers manned a city police lifeboat which was launched by Lieutenant Kennedy, Sergeant Smith and Patrolman William Alliger and State Police Corporal McGuire and Private O'Brien and Deputy Sheriff Frisbie.

Both sides of the Mahoning river

between the Willow Grove bridge and West Pittsburgh were combed, but no trace of the body was found after it was seen floating beneath the Willow Grove bridge.

According to the persons who noticed the body, it apparently had been in the water between 36 and 48 hours, because it was bloated and floated upon the surface of the water.

A large crowd collected on the Moravia-West Pittsburgh bridge to watch the search. What appeared to be a leg was seen lodged against a tree. John Chambers of West Pittsburgh worked his way out to it and found it was a dead rabbit.

# Lowlands Flooded At Nashua Bridge

Waters of the Shenango river flooded over the banks around the Nashua bridge at Nashua, ruining plowed fields and crops of farmers. Nashua road was impassable around the bridge, although several people attempted to drive through the water covering the road. Banks of the river are extremely low, making floods more probable there than elsewhere. No apparent danger to homes or other rivers in the vicinity is likely.

# American Woman Slain In Tokyo

TOKYO, June 9. — (INS) — The murder of an American woman employee of the War Department, stationed in Tokyo, caused U. S. Army authorities today to launch a wide-spread search for the slayer.

The woman's body was found by Japanese police in the Nakano Ward on the outskirts of Tokyo. She had been shot to death.

The Japanese police said the body was discovered "on the spot" where the woman had been slain. No firearms were found in the vicinity, ruling out the possibility of suicide.

Officers attached to the U. S. Provost Marshal's headquarters in Tokyo said the woman was an American citizen. Her name was withheld pending notification of her next-of-kin.

## GOVERNMENT WASTE OF PAPER

We are in receipt of a letter from the public relations division of the war department. Attached to the letter was a news release on a sheet of paper about the size of a letter-head and it would have made a story about two inches long. If we had printed it, the story contained nothing of interest to folk around here, or anywhere else, in our judgment. The letter and news release came in an envelope about 9 by 12 inches in size, and they were placed between two pieces of 6-ply cardboard as large as the letter-head. We presume that all newspapers received the release and all the wrappings. Since we have been having a terrible time buying cardboard, letterheads and envelopes, we would suggest to the war department that public relations would be enhanced if it would close down the public relations division and send its paper supplies to the editors in blank form—and postage free. The paper shortage is so acute that not many of us editors are in a good humor.—Garber, Okla., Sentinel.

# HOLD EX-SOLDIER, GIRL FRIEND FOR SHOOTING, THEFT

NORTHAMPTON, Mass., June 9. — (INS) — State police were holding today a young ex-soldier from Chicago and his sweetheart for investigation in the shooting of a college professor and theft of his car.

Police said the youth, Edward Hawkins, 20, of Chicago, admitted the shooting which occurred because he needed a car "to elope." The girl was identified as Pansy M. Herman, 19, of Hardenville, Mass.

The couple were arrested outside of Albany, N. Y., last night after a 70-mile-an-hour chase. They raised no objection against being returned to Massachusetts.

The victim of the shooting was Norman W. Butterfield, 42, of Kingston, R. I., professor of horticulture at Rhode Island State College. He was shot in both legs. Butterfield said he was shot after giving them a lift.

# Slight Damage To West Side By Winds

Severe winds which struck Ohio and Sharon Saturday were felt mildly in Union township.

Small trees, large limbs and leaves were strewn over streets of Grandview avenue, West Washington street, Youngstown road, Boston avenue, and the outlying rural districts. Damage was slight, with only fruit trees suffering in loss.

Two large branches of a maple tree in the front lawn of Mrs. Rose Whitmer of 1411 Washington street, crashed with terrific force, frightening in the inhabitants of the neighborhood. Many of the residents believed that lightning was the cause of the damage, but no destruction by lightning was known in the township.

Official meat grades most often seen in retail markets are "U. S. Choice," "U. S. Good" and "U. S. Commercial".

**WAREHOUSE ENTERED**  
Burglars entered the Axe warehouse, Rebecca way, early Sunday morning. Cartons of foodstuffs were open and several dozen boxes of raisins were taken. The entry was discovered by Policeman Haering.

A hasp was also broken off the boiler room door of the Travers Motor company, Croton avenue, Saturday night. The broken hasp was found by Policeman Bush.

**REPORT ATTACK BY DOG**  
Mrs. Harold Scipione, 201 South Crawford avenue, reported to police Sunday afternoon that her daughter, Billy Jean, who was visiting at 637 Forrest street, was attacked by a dog owned at the Blews residence.

639 Forrest street. The skin on her arm was broken. She was treated for the wound.

The highest stone in an arch is known as the keystone; the lowest as the springer.

The ocean is deeper at its deepest point than the highest mountain is high. For instance, if Mt. Everest was placed in the deepest pit of the Pacific, its summit, 5 1/2 miles high, would be submerged more than half a mile.

## Around Hollywood

By JOHN TODD

International News Service Staff Correspondent

HOLLYWOOD, June 9.—(INS)—Walter Slezak, who was afraid to fly until two years ago, really has gone air-minded in a big way.

He's going to have his own air field on his big farm in Bucks County, Pennsylvania.

Walter departs for a vacation there with his wife and two children as soon as he winds up his role in "The Pirate" for M-G-M, which will be soon.

When your reporter arrived on the set, he was all enthusiasm.

"My new plane has arrived," he said. "I was afraid it wouldn't get here in time for the trip. It is a beauty."

Although the airport is only eight miles from his house, Walter said he has so much land he decided to have his own strip.

"For the past month, they've been making tests to learn the prevailing wind direction," he said. "I have a barn which I can use as temporary hangar. The landing strip will be about 1800 to 2000 feet long."

Jimmy Dunn, who won an academy award a couple of years back, is paying Mickey Rooney's father in "Killer McCoy."

When your reporter went on the set, he was told they were in conference in Mickey's dressing room, so we wandered over in this direction.

A radio was going and it was obvious what the conference was about. Coming out of the loud speaker were the race results.

Your reporter had just reached the door when Mickey burst out, followed closely by his screen father. They were hastening for a phone to place a bet.

Dean Jagger has gone on his usual diet, now that he's working in "Driftwood" at Republic.

"I eat a very small breakfast, a little salad for lunch and a regular dinner at night," Dean explained.

# IS THERE A CRISIS In Our SCHOOLS?

Here are excerpts from a letter received by the Pennsylvania State Education Association:

"The building in which I teach has 35 teachers. In September, 1946, 14 of these teachers were new to the school.

"Since then we had to get 8 more new ones.

"This made the total turnover for the year 65%.

"Of these new teachers, 11 have never taught before.

"Six of them have emergency teaching certificates.

"During the year we lost 7 teachers who resigned to take better jobs.

"Twelve teachers must carry on some job outside school hours."

Such conditions prevail all over Pennsylvania. Schools will not make a return on your investment in them without qualified, satisfied teachers.

## There Is a Crisis in Our Schools

Thirty thousand teachers in the State of Pennsylvania this year received less than \$2000. Only a substantial raise in teachers' salaries will keep present teachers on the job and attract new members to the profession. Failure to provide adequate increases means certain breakdown of our public school system.

The impression that the House of Representatives has approved a \$550 increase in salaries of all school teachers is FALSE. Only 3000 teachers who are now receiving \$1,400 would get a \$550 raise.

For most teachers the only mandatory increase provided by the bill would be \$150 for the next school year. And many teachers would receive NO INCREASE AT ALL.

Published reports that the House-approved bill would require that all teachers be paid \$1,950 to \$4,000 are misleading.

Only a few teachers would get that \$4,000 mandatory pay. (\$4800 in Philadelphia and Pittsburgh). For others to get that sum would have to have:

- (1) Five years of college education.
- (2) Sixteen years of experience.
- (3) Four annual merit increases, at the discretion of the Superintendent and with the approval of the local School Board, and merit increases are not given when funds are scarce.

Merit rating has been tested in Pennsylvania and found impractical.

The \$48,000,000 of Pennsylvania's budget which has been allocated for school subsidies does not all go for teachers' salaries by any means.

At least 30 PER CENT of this sum will go for other school costs.

That a crisis confronts the school system of Pennsylvania the teachers of Pennsylvania know. They proposed a legislative solution. Legislative action to date will not meet the crisis.

The increases so far voted do not provide for the immediate economic needs of the experienced teachers.

The proposed increases are less liberal than laws adopted in our neighboring states of New York and Maryland. The trek across state lines will increase.

The Pennsylvania State Education Association holds that the solution is:

- (1) More State appropriation than thus far provided.
- (2) A living wage for ALL teachers.
- (3) Immediate increases for underpaid teachers with years of experience.

## Mr. and Mrs. Parent and Citizen of Pennsylvania

You must be interested, for the sake of your children and our future citizens, in the decision that will be made by the lawmakers in Harrisburg this week.

You share in the responsibility for good schools. The teachers want good schools—they have presented a program—they have pressed with all their vigor for its adoption. A breakdown of our school system this fall cannot be laid at our doorsteps.

We have warned the Governor and Legislature repeatedly of this crisis.

We now warn you.

## Forecasts Farm Price Declines

WASHINGTON, June 9.—(INS)—Chester C. Davis, president of the Federal Reserve Bank of St. Louis, warned Saturday that the prices of farm products will decline in the near future.

As spokesman for the Research and Policy Committee of the Committee for Economic Development, Davis made his prediction before the House Agriculture Committee which is conducting hearings on a long-range program for agriculture.

Davis declared that "it is highly unlikely" that the agricultural price situation will continue to be as favorable as it has in the last few years. He explained: "Powerful forces will be dragging at farm commodity prices. The tendency will be toward a decline in the exchange value of farm products in terms of other goods and in market prices as well."

### STORY WITH A MORAL

ST. JOSEPH, Mo.—(INS)—The ghost of Jesse James isn't going to like this worth a hoot. The daring outlaw—who was alleged to have obtained hundreds of thousands of dollars in train robberies and other holdups—died penniless. The public administrator, at the time James was killed April 3, 1882, found that the notorious criminal had virtually no property. In fact, so meager that the administrator, Thomas R. Smith, asked no fee from the estate.

## How Can He Read Well If He Never Saw Life On Farm?

Schools Urge Parents To Give Pre-  
School Child Glimpses Of  
Places And Things

School pupils who can't read when they reach the upper grades in school as a result have a hard time learning and at present schools are urging parents of pre-school age children to see that they give the children—not instruction in formal reading—but experiences to develop reading readiness. Suggestions to parents as to what experiences are helpful to a child in developing reading readiness as set forth here, come through the schools.

Have you for instance, ever visited a farm? . . . seen cows milked by hand? . . . seen cows milked by milking machines? . . . seen a silo? . . . seen a hay loft? . . . seen puppies, kitten, lambs, etc? . . . seen young animals getting their food from their mothers? . . . seen farm machinery? . . . watched butter made? . . . used a pump for water? . . . seen a spring? . . . ridden on 1) a train, 2) a street car, 3) bus, 4) boat, 5) escalator, 6) elevator? . . . visited a zoo? . . . a museum? . . . gone to a circus?

These are all things that make it easier for a child to learn to read after he starts to school. Read him stories, parents are advised, and discuss the pictures with him, but be sure he understands that it will be some time before he will be able to read them for himself. And don't, please, the reading teachers earnestly beseech, try to instruct your child in reading before he comes to school. Methods are different now and this will queer the pitch of your child's adjustment, so they say.

He will catch on to reading more quickly, have more confidence in himself, and adjust better to formal instruction if his bump of reading readiness is highly developed instead. This is the trend now in how to teach the skill on which all civilization has been based since the days of cave-men's picture language.

There's no harm in helping him develop confidence in his counting ability at home by giving him objects to touch as he counts. It gives a child added confidence, too, when he starts to school if he is able to print his name correctly when he starts in first grade.

### BUSINESS MEN, TOO

The Swedes are getting a lesson about doing business with Stalin. Under a trade agreement, the Russians buy Swedish goods on a 10-year credit. Now, Stockholm reports, they're reselling some of these goods for cash—with "made in Russia" labels—on the Swedish market at 80 per cent above invoice prices.

Buyers in Sweden pay these premium prices because they can't get such products as electrical equipment from Swedish manufacturers, whose output is tied up by the heavy commitments to Russia.

Maybe the real trouble with the capitalistic system, from the Soviet viewpoint, is that there's not enough profit in it.—Rocky Mountain News.

## Steam Locomotion Records Claimed By Coal Industry

Tests Reveal New Marks Set For  
Steam Engines Fired By  
Bituminous Coal

PITTSBURGH, June 9.—(INS)—In its unceasing campaign to keep coal to the forefront among competitive fuels, Bituminous Coal Research, Inc., of Pittsburgh, claimed new world records for coal-fired steam locomotives.

The bituminous coal industry's National Research Agency claimed "greater monthly mileage...than was ever thought possible for a steam locomotive" in tests conducted from October 1, 1946 to March 31, 1947.

Six modern coal-fired Niagara class engines of the New York Central railroad were put to the test, BCR officials said, adding: "Individual engines made world records exceeding 28,000 miles per month during the six-month period in which all six operated 786,818 miles for an average of almost 22,000 miles per month."

Monthly Average

The monthly average for active passenger locomotives in class 1 railroads is only 6,743 miles, according to statistics compiled by the Association of American railroads.

The Niagara class engines were assigned to fast passenger trains

between Harmon, N. Y., and Chicago, Ill., officials said.

"Periodic servicing and other necessary maintenance were expedited," a spokesman said, "to permit greater availability."

He added: "The high monthly mileage attained, however, is offered as proof of the superior performance and availability of coal-fired steam locomotives when they are supplied with good coal and given prompt service attention."

At the same time, BCR announced that a recent poll showed that 32 railroads have 1,840 locomotives equipped with modern overfire steam-air jets designed to control locomotive smoke.

The Pennsylvania Railroad has the largest number of jet-equipped engines, including nine road locomotives and 320 switch engines.

# Senators Defeat White Sox In 18 Inning 1-0 Game

## First Victory For Nats Over Sox This Year

Washington Glad To Get Out Of Chicago, Drop Second Game 8-2

### PIRATES-PHILS SPLIT TWO GAMES

By LES CONKLIN  
(International News Service Sports Writer)

NEW YORK, June 9.—The Washington Senators were quite happy to leave Chicago behind them today, because beating the White Sox has proven to be their toughest task all season.

In nine tries this year the Nats have beaten the Pale Hose just once, and then it took 18 innings to turn the trick—in the first game of yesterday's double-header. When Al Evans tripled in the 18th and scored on a fly, winning the game 1 to 0, he broke up the longest marathon performance while the junior circuit since another Washington team and Detroit set an American League record by battling 18 full innings to a scoreless tie in 1909.

**Good Pitching**  
The major league record of 20 scoreless innings was set by Pittsburgh and Boston of the National League in 1918. Pittsburgh scored two runs in the 21st inning to win 2 to 0.

Stars of yesterday's marathon were Walt Masterson of the Senators, who pitched shutout ball for the first 16 innings, and Lefty Frank Pappish of Chicago, who did a paint job for the first 13 frames. The White Sox won the nightcap, 3 to 2. American League hurlers are doing some mighty fancy pitching these days while their National League brethren are tearing the cover off the ball. Bob Feller of Cleveland turned in a three-hitter in blanking the Athletics 2 to 0 in the second game of a twin bill. This masterpiece, rapid Robert's fourth shutout of the season, came after Phil Marchildon of the A's held the Indians to four hits in the opener and whitewashed them 4 to 0. Prince Hal Newhouser of Detroit turned in another four-hitter in shutting out the Boston Red Sox, 5 to 0. Dave Ferriss was the losing pitcher as the champion Sox tumbled into the second division. ## Zivic, Seerett Fight Tonight

PITTSBURGH, June 9.—(INS)—Charley (Young) Zivic, Pittsburgh middleweight, surviving for brier game under the tutelage of Fritz Zivic, former welterweight king, gets a real test tonight when he meets Sammy Seerett, veteran trial horse from Cecil, Pa., in the ten-round main event of a fight card in Zivic's "punch bowl" in Pittsburgh.  
Zivic was installed as favorite off his two victories over Sammy Adragna of Carnegie. Adragna defeated Seerett last year.  
In the eight-round semi-windup, Joe Barone, Pittsburgh featherweight, seeks revenge from Dick Cook of Cincinnati. Cook is the only fighter to outpoint Barone, a former Golden Gloves champion, in his professional career.

## Tourney Interest At Fever Heat In District Today

Ralph H. Gardner Says "We Expect At Least 24 Teams In NBC Tourney"

### OPENING GAMES FRIDAY NIGHT

Ralph H. Gardner, deputy commissioner of the National Baseball Congress district tourney to start here Friday, June 13th with dedication services at the new P. J. Flaherty Field, announced today that in all probability there will be 24 teams entered.  
The response by district teams to the right to meet for the state championship here in July has been more than gratifying. "We never dreamed of having so many teams," Gardner said.

**Few To Hear From**  
There are a few teams yet to be heard from. In Sharpsville, Sharon and Ellwood City, then we are ready to draw up the opening games and arrange the tourney. Since Saturday two more teams—South Hills and New Galilee have entered.  
Gardner is planning to stage three games Friday night, 5:30, 7:30 and 9:30 o'clock, two games Saturday afternoon, three games Saturday night and two Sunday afternoon to work off ten of the tourney games.

"Of course it all depends on the weatherman and if we have enough sunshine this week to dry up the field and allow work to be done, we will be ready to go Friday night," Gardner announced.

**Daugherty Still Head**  
There was a slight error in the Saturday issue. It should have read Joseph Daugherty president of the Johnson Bronze Employees Association, instead of Emory H. Meyer, the latter being the newly elected president but has not as yet taken office. It was announced by the Johnson Bronze.  
This will be a "sudden death" tourney, a loss will drop the loser out of the tourney. There will be 25 or 26 games with 24 teams in the tourney. New Castle in all probability will see the first night game Friday, (weather permitting).  
The Philadelphia Eagles announce signing of star ends Larry Cabrelli and Jack Ferrante for the 1947 season.

## Hitting Features City League Battles Sunday

WEST SIDE TIGERS LAMBAST COLUMBUS  
INDIES-SPARTANS SET LEAGUE RECORD

Lee Avenue baseball field had its own tornado Sunday afternoon, and when the storm damage had been reckoned, it found the West Side Tigers, on top of the debris, 11 to 3, over the Columbus Club, in an outburst of power batting that produced 15 hits.  
The Tigers had very little mercy for three Columbus hurlers—Raney, Lindy, Lauro and Adamo, while Hughes, Pyle and Morrison teamed up to pitch a two-hitter.

Leading the hit-parade for the Len Gilbert sluggers, was Pat Palmer with two doubles and singles. Grieve with a double, and Johnny Marshall with three singles. Wimer, Kearns and Thomas all had two singles apiece. A. Rainey and Campbell had the two hits allowed the league leaders.  
Tonight the Tigers will endeavor to continue their power hitting when they tangle in a postponed game with the Universal Pottery, at 5:45 at the Lee field.

Leading the hit-parade was Kosior and Flinn with four hits apiece, while Smiley, Magnusik, Hen Koszula, Budal, and Dashiield had three hits apiece. Billy Andrews was the winning pitcher and Clark the loser in the slugfest, the Spartans used three hurlers. Andrews fanned nine batters.  
In only one inning, the sixth, did either team fail to tally.

## Wright And Priest Open Outdoor Boxing

PHILADELPHIA, June 9.—(INS)—The outdoor boxing season opens in Philadelphia tonight with Bee Wright, Casey Harrisburg welter, a 12-5 favorite over New England's Al (Red) Priest in the featured 10-rounder.

Each fighter will be trying for his fifth straight victory of the year. Both boys are rugged knockout artists, although ringsiders believe Wright's skillful 'bag of tricks' will give him a decided edge.

**JOHNSON BRONZE WINS**

## Didrikson, Sigel Woodward Winners In British Open

GULLANE, Scotland, June 9.—(INS)—America's three contenders made a clean sweep today in the first round of the bid for the British women's golf championship.

Mrs. Babe Didrikson Zaharias knocked off Scotland's Helen Nimmo six and five as a cold and driving wind swept over the Scottish Gullane course.

Helen Sigel of Philadelphia, runner-up for the 1941 United States championship, disposed of France's Philippine Eloye seven and six.

Ruth Woodward of Fall River, Mass., squeezed through to victory when she topped Nancy Jupp of Wales by one up.

## Dodgers To Pad Outfield Wall

NEW YORK, June 9.—(INS)—Pete Reiser of the Dodgers and other dashing outfielders who crash into the concrete while chasing fly balls will be able to bash their heads against the wall at Ebbets Field with perfect safety in the near future.

Officials of the Brooklyn club announced that the entire wall at their park will be padded with rubber to prevent serious injury to eager fly-chasers.

Reiser, who crashed into the wall Wednesday night while making a sensational catch, was resting comfortably today but must rest for four or five more days before returning to the Dodger lineup.

## Set Dates For Legion Playoff

PITTSBURGH, June 9.—(INS)—George E. Bell, activities director of American Legion Junior Baseball in Pennsylvania, announced the annual state championships will be held at Forbes Field in Pittsburgh, Aug. 21, 22 and 23.

The title game, between the eastern and western finalists, will be played at night.

## Janoski Is New Monessen Coach

MONESSEN, Pa., June 9.—(INS)—Art Janoski, basketball coach at Monessen high school, resigned Friday night after the school board had turned down his request for a salary increase by a 4-3 vote. His assistant, Frank Janoski, was approved his successor.

## FIRST VICTORY FOR NATS OVER SOX THIS YEAR

(Continued from Preceding Page)  
trying to swing a deal with St. Louis for another starting pitcher became apparent when the Browns, lacking three secondary New York turn-overs for four homers, trounced the Yanks 9 to 2. New York took the nightcap, 5 to 4, but fell a game and a half behind the pace-setting Tigers.

**PHILS-Pirates Split**  
In the only National League games played, Pittsburgh and the Phillies split a twin bill. Dutch Leonard pitched and batted the Phils to a 5 to 2 win in the opener despite Ralph Kiner's two-run homer, but the Pittsburgh strong boy belted another homer in the ninth inning of the second game to give the Pirates a 5 to 4 win.

For the owners of the New York Giants and the Brooklyn Dodgers and their scheduled opponents, it was the most disastrous "lost weekend" of the National League season.

The early name of Boston Mass., was Trenton, a name given because of the three hills on which the city stands.

## Racer Meets Death At Ravenna Track

RAVENNA, O., June 9.—(INS)—Gene Bernard Quillin, 23, of Millersburg, O., will never collect the purse he won yesterday after finishing first in a stock car race at the Ravenna speedway.

Quillin died in Robinson Memorial hospital a few hours after he had crashed his winning racer through a guard rail. A portion of the rail smashed through the bottom of the car and pierced his body.

His car had skidded on a turn just after he crossed the finish line.
